**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I am a Sonic customer, and I depend on an ATT copper last mile link for my internet. It is not really broadband, but is fast enough for my needs. This service also provides land-line telephone.

I did not get good service from ATT directly. I chose Sonic for their quality, honesty and integrity. It costs a bit more, but is worth it. If service charges change, they should definitely be tied to an upgrade in service quality, preferably to real broadband. Anything less is unacceptable at the current level of technology.
